ENVIRON® SKIN CARE

INTENSIVE REVIVAL MASQUE

VISIBLY UNEVEN SKIN TEXTURE AND PIGMENTATION HAVE OFFICIALLY MET THEIR MATCH

01 What it is: This intense mask boasts a unique elixir of ingredients specifically formulated to target the appearance of uneven skin tone and texture, as well as signs of photodamage.

02 We bet you didn't know: For enhanced effects, the Cosmetic Roll-CIT works wonders when used before applying.

03 What makes it unique: The formula is scientifically proven to create visibly luminous skin that appears smoother, firmer and younger-looking over time.

04 What the editors think: "The multitasking claim gets thrown around a lot, but this do-it-all mask actually delivers."

05 Why the company created it: To help improve the appearance of fine lines, scarring and lax skin, which are caused by sun exposure and environmental hazards.

06 How to use it: After cleansing and toning skin, dispense a dime-size amount of the mask into the palm of the hand using a spatula and apply a thin layer to the face, neck and décolleté. Leave on for 10 to 20 minutes before removing with tepid water.

"It was the first step in the mission I had to make a skin-care product that would be like a 'facelift in a bottle.'"

—Founder, Dr. Des Fernandes

Intensive Revival Masque, $81, dermaconcepts.com

BEFORE This woman suffered from heightened redness and slack skin she could not control.

AFTER After four years of using the mask, her skin looks brighter, firmer and more luminous.

99% The approval granted by trialists on research and trials done for this product over four years

BASIC INFO

WHAT IT'S GOOD FOR: Skin that suffers from the negative effects of overexposure to daily environmental hazards

WHAT IT'S DESIGNED TO DO: Reverse the appearance of deep-set damage and create luminous-looking skin

SCENT: Fragrance-free

TEXTURE: Smooth, thick

KEY INGREDIENTS: Asiatic, lactic and mandelic acids

CATEGORY: FACE - FORMULATION: MASK - GOOD FOR: ANTI-AGING
