Proper indications, expectations, protocols, pre-post care and client follow-up will be discussed.

This certification course, required to be attended LIVE by all Environ Skin Care Providers, will ensure a thorough understanding of treatment products and protocols and offer the opportunity to watch, receive and perform treatments. After attendance is verified, you will receive two digital exams, a Professional exam and a Cool Peel exam, via email. If you achieve a passing rate of 80% or above on each exam, you will then receive a digital certificate for the corresponding exam. If you do not pass, you will have the opportunity to review the exam(s) and your answers with your consultant or the Director of Education and re-take the exam
