

what we **BELIEVE**

We believe that everyone can live beautifully

And that no one should live with regrets

It is never too late, or too early, to start over

We know that you are more talented

and beautiful than you think

And that your true beauty is waiting to be revealed

You can do anything you put your mind to –

if your heart is in it too

We believe that doing what you love

is like the air you breathe

And that vitamin A is like oxygen to your skin

No one, young or old, should deprive themselves of either

We know that when it comes to life there are no short cuts

And that your skin is no different –

the easy way is never better

Be patient, your determination will be rewarded

We hold true to the pursuit of a beautiful life

And to the science of skin it's taken a lifetime to perfect

We exist to keep skin beautiful for life

You only have one skin. Look after it.

You only get one life. Live it.
