Spotlyte: *For your own skin, what products do you rely on?*

GL: I use everything. My regimen is never short of twelve steps and gadgets. My favorite thing is to chill out in the morning. I get up really early, lock the bathroom door and ask my skin what it needs today.

I always start by feeding my skin with vitamins first. I use C-Quence® 1 from Environ® (\$125), which is packed with vitamins.
