

focus on

MICRO-NEEDLING

Focus on targeted areas where frown and expression lines exist.

ENVIRON®

a beautiful skin for a lifetime

Peptide Enriched Frown Serum

Product Description

Peptide Enriched Frown Serum is a unique combination of three wrinkle-fighting peptides. These peptides may help to prevent the appearance of fine lines and wrinkles as well as expression lines, especially in the forehead area.

Product Benefits

- a blend of synergistic peptides
- helps smooth & soften the appearance of frown lines
- helps reduce the appearance of muscle tension
- mimics the effects of a peptide found in snake venom to relax muscles

Cosmetic Roll-CIT

Product Description

This hand-held rolling instrument is made from precision-crafted, medical-grade plastic, and has 0.1 mm stainless steel micro-needles and optimizes the benefits of Environ products on the effects of specific skin conditions.

Product Benefits
