HA INTENSIVE HYDRATING SERUM

Product Description

HA Intensive Hydrating Serum contains a high concentration of Hyaluronic Acid (a known moisture magnet) and may help to leave the skin visibly smoother and plumper with more resilience.

Benefits

- Assists in hydrating the skin and improving the appearance of fine lines.
- Contains Hyaluronic Acid, derived from plant extracts in high, effective concentrations.

How To Use

Pre-cleanse, cleanse and tone the skin with your preferred Environ products.

Prepare dehydrated areas of the skin with the Environ Cosmetic Focus-CIT or Environ Cosmetic Roll-CIT.

Massage 1 – 3 drops of Focus Hydrating Serum into the skin.

Allow to dry and follow with your recommended Environ vitamin A moisturiser.

Use morning and evening.

Suitable for all skin types especially dry skin.

Suitable for all ages but recommended for mature skin types
